

Queueing Networks--exact Computational Algorithms: A Unified Theory Based On Decomposition And Aggregation

by Adrian E Conway; Nicolas D Georganas

Allen AO "Introduction to Computer Performance Analysis with . An Aggregation-based Solution Method for M/G/1-type Processes. In B. Plateau, W. J. Stewart, Queueing Networks-Exact Computational Algorithms: A Unified Theory Based on Decomposition and Aggregation. Computer Systems Series Queueing networks - exact computational algorithms: a unified . Queueing networks--exact computational algorithms : a unified theory based on decomposition and aggregation / Adrian E. Conway and Nicolas D. Georganas. Computer Networks and Systems: Queueing Theory and Performance . - Google Books Result 13 Dec 1993 . For closed queueing networks with p closed chains, the generating .. A. E. and GEORGANAS, N. D.
